

# PEDIATRIC PROGRAM

*Lending kids a helping  
hand*

Our Occupational Therapists can determine specifically in what areas your child, adolescent or young adult is having difficulty.

CBI HEALTH GROUP

*...best health.*

## THE FOCUS CAN INCLUDE:

- Fine motor (holding onto toys or crayons, cutting with scissors)
- Handwriting (illegible, too slow, can't keep up with class)
- Gross motor (sitting, walking, jumping, running, skipping)
- Visual motor (throwing and catching, copying shapes, letters or numbers, avoiding team sports)
- Visual perceptual (recognizing letters, numbers and shapes)
- Sensory motor (avoiding certain textures, seeking tight hugs, needing to move or swing)
- Self-help skills (feeding, picky eating, dressing)
- Attention, concentration
- Behaviour and social skills

Assessment results will be reviewed and discussed with the parent/caregiver. A thorough report will be written and recommendations provided. Parents/caregivers will be active participants in formulating treatment goals with their therapist.
